Innovation in ubiquitous interconnected technologies, together with the growth of interconnected computing and storage, defines the foundation to a vast landscape of unforeseen digital services and social networks. Instant access to services, real-time data and the ability to share content down to detailed social and very personal information. Developing sustainable communities and optimising the utilisation of resources, such as energy, led to the development of new technologies for smart utilities, smart cities, smart transport and the evolution of autonomous technologies for manufacturing and transport. Significant commercial opportunities promised by these technologies and services inevitably attract cybercrime and the need for research and innovation in Privacy, Security and Trust.

The Annual International Conference in Privacy, Security & Trust (PST) provides a premier forum for sharing advances in cybersecurity research and security applications. PST2018 will be held in Northern Ireland at the Centre for Secure Information Technologies (CSIT) and Queen’s University Belfast, and will offer three days of keynotes, technical presentations, posters, workshops, and an Industrial day with vendor exhibition.

**PST TECHNICAL SCOPE**

Papers are invited which address new and previously unpublished results in the area of Privacy, Security & Trust, and related topics.

- Privacy Preserving / Enhancing Technologies
- Critical Infrastructure Protection
- Network and Wireless Security
- Cloud Security, Web Security and Privacy
- Internet Of Things (IoT) Security and Privacy
- Operating Systems Security
- Intrusion Detection / Prevention Technologies
- Secure Software Development and Architecture
- PST Challenges in e-Services, e.g. e-Health, e-Government, e-Commerce
- Digital Forensics
- Security Analytics and Data mining
- Cryptographic Technologies
- Recommendation, Reputation and Delivery Technologies
- Continuous Authentication
- Trust Technologies, Technologies for Building Trust in e-Business Strategy
- Observations of PST in Practice, Society, Policy and Legislation
- Digital Rights Management
- Identity and Trust Management
- Human Computer Interaction and PST
- Biometrics, National ID Cards, Identity Theft
- Implications of, and Technologies for, Lawful Surveillance
- Privacy, Traceability, and Anonymity
- Trust and Reputation in Self-Organizing Environments
- Anonymity and Privacy vs. Accountability
- Access Control and Capability Delegation
- Representations and Formalizations of Trust in Electronic and Physical Social Systems

**IMPORTANT DATES**

- Paper submission deadline: April 23, 2018
- Notification of acceptance: June 18, 2018
- Final camera-ready paper due: June 29, 2018
- Advance registration (authors): July 14, 2018
- Advance registration: Aug. 7, 2018
- Conference date: Aug. 28-30, 2018

Please visit the conference web site or contact the PST2018 Conference office at j.doherty@qub.ac.uk or +44 28 9097 1703 for registration and current conference information.
