About the Annual International Conference on Privacy, Security & Trust

The Annual International Conference on Privacy, Security & Trust provides a premier forum for sharing advances in cybersecurity research and security applications. PST offers an academic forum and an Industry Summit on themes of privacy, security, and trust, together with recent advances in Blockchain Technology.

Sponsorship Opportunities

CIC was established in 2017 as a comprehensive multidisciplinary training, R&D, and entrepreneurial unit. Its precursor, the Information Security Centre of Excellence, operated at the University of New Brunswick since 2007 and was a leader in cybersecurity.

In 2003, the ISCX started hosting the annual international conference series on privacy, security, and trust academic paper presentations on the leading topics related to cybersecurity. The conference was cancelled in 2020 due to pandemic travel restrictions and it was offered virtually in 2021. The conference was reformatted in 2022 to include virtual attendance and an added hybrid day for an Industry Summit in Fredericton.

The Industry Summit brings together participants from across government, academia, and industry for an intense day of discussion, keynote presentations, and networking.

PST Industry Day sponsorships create important opportunities for your organization to elevate its strategic positioning, foster new relationships, and increase its exposure within the industry.

Benefits of sponsorships:

- Raise your public profile.
- Build your professional network within the cybersecurity community.
- Promote your own products, services, and solutions to industry partners.
- Maximize your exposure with more effective reach and frequency.

Sponsorships make it possible for CIC and PST to:

- Provide effective leadership as the industry's most authoritative voice.
- Continue providing the community with a high calibre event that keeps you up to date on trends.
- Provide members with a forum to foster long lasting connections and share ideas and experiences.
- Support student skill development.
